MARSILING ENVIRONMENT CLUB (M.E. CLUB)

Tuesday: 2.30 pm – 5.00 pm

Teachers in-charge:
Ms Neo Zhu Lin
Ms Ng Pei Sun

Info abt MEC:

The Marsiling Environment Club was formally set up this year. The main objective of setting up the club is to inculcate awareness and to motivate students so that they will gain sense of individual and team responsibility for our environment and in the process, learn how to reason, think critically and act to protect the environment in a balance way. We call it the M.E. Club (Marsiling Environment Club) because we believe environment conservation starts with ME!

We have taken active roles in environment protection through

- Activities and competitions such as Environmental Champions Workshop I & II, Green Teen Camp, Photography Workshop cum Competition, NEA Poster Design Competition etc
- Cleanups at Pasir Ris and Labrador
- Learning Journeys at Botanic Garden and Sungei Buloh
- School-wide Programme such as Environment Game Bazaar, Notice-board Design gardening at Spice & Herb Garden and MSL Recycling Programme

Selected students also had a once in a lifetime experience at Underwater world with the Turtles which have by now swimming happily in the South China Sea.

We hope to see more enthusiasm in environment conservation as we become more aware of their importance to us. M.E. Club will be coming up with more activities for you and we look forward to your active participations! Do your part, as it all starts with M.E.!!
